DETAILED ACTION

The amendment filed 7/10/06 has been entered.

Allowable Subject Matter

Claims 5-8 are allowed.

The following is an examiner's statement of reasons for allowance: Prior art fails to disclose a device for generating X-rays comprising a pumping means for causing a flow of the liquid metal through a constriction where the electrons emitted by the source impinge upon the liquid metal, and a wall for bounding the constriction at least in part, the wall being at least substantially opposite to the window and having a taper associated therewith, wherein the constriction has a cross-sectional area relative to a flow direction that increases so that during operation in the flow direction, a decrease of a flow velocity causes a decrease of a pressure of the liquid metal in the constriction substantially corresponding to an increase of the pressure resulting from the decrease of the velocity, as claimed in claim 5. Claims 6-8 are allowed due to their dependency on claim 5.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
